

Description

This amazing, renovated palace residence is dated from the XIX and is located in the heart of the historical centre of Velez-Malaga close to other historical buildings, museums, markets and all other amenities.

The property was renovated to a very high standard back in 2000. It could be used as a home, but it has a huge potential to turn it into a boutique hotel. It also has 2 commercial premisses right on the ground floor of around 35 m2 each with very high ceilings that could be turned into another 2 business or could be added as extra accommodation turning them into extra rooms or independent apartment/lofts or they could just add additional services to the hotel such as a restaurant.

As soon as you enter the property, the feeling of quietness that detaches you from noiser town centre is only broken by the noise of running water from the fountain.
