Description

This villa in Mijas Golf offers something that is becoming increasingly difficult to find: space, tranquillity and privacy in an established residential setting, without sacrificing proximity to the coast and everyday amenities. Fully renovated and recently redecorated throughout, the property immediately feels warm and welcoming, with bright interiors, generous living spaces and a comfortable atmosphere designed for year-round living.

The main floor accommodates most of the home's day-to-day living areas. It features three spacious bedrooms and three bathrooms, along with an impressive double-height living room that creates a wonderful sense of space. A wood-burning fireplace, large windows and direct access to the terraces and garden make this one of the standout areas of the property.
The fully renovated and equipped kitchen combines functionality with contemporary design in a bright and inviting setting. From the main living areas, several covered terraces extend the interior spaces outdoors, creating ideal spots for al fresco dining, relaxing or enjoying the shade throughout much of the year....
