Investment Opportunity - Building with Excellent Hotel Development Potential in the Heart of Ronda

An outstanding investment opportunity in the historic town of Ronda. This four-level building (Ground Floor + 2 Floors + Penthouse) is ideally located just a short walk from Calle Espinel and the iconic Puente Nuevo, in one of the city's most sought-after commercial and tourist areas.

The property is currently completely open-plan, having originally been constructed as a commercial warehouse. This provides exceptional flexibility for designing a bespoke layout to suit a wide range of development projects.

Its configuration makes it ideal for conversion into a boutique hotel, guesthouse, tourist apartments or a residential development, subject to the relevant planning permissions and local regulations.
