

Description

Are you looking for an asset with real potential in the heart of Málaga? We present this excellent opportunity: a set of three rustic plots totaling 13,918 m², located in a strategic enclave between Pizarra and Álora.

The great advantage of this land is its versatility and equipment, ready to launch any project from day one:

Key Resources: It has a water storage tank and electricity transformer, factors that multiply the property's value and profitability.

Current Condition: The land combines irrigated olive groves and pasture areas, ideal for restarting operations.

Investment Potential: Due to its size, location, and access, it is an ideal option for a solar panel park project, intensive agricultural use, or a secure long-term investment....
