Description

There are apartments with sea views... and then there are homes where the sea becomes part of your everyday life.

Located in La Roca Chica, one of the most privileged settings on Torremolinos' seafront promenade, this 48 m2 apartment, ready to move into, is a dream for anyone who wants to open their eyes in the morning and see the Mediterranean Sea right in front of them.

Here, you can wake up looking at the sea from your bed, enjoy breakfast overlooking the water and end your day watching the horizon from your terrace. The views are so close and open that the feeling is simply breathtaking: it almost feels as though you could reach out and touch the water.

The apartment offers a comfortable and functional layout. As you enter, you will find the bathroom, followed by an open-plan area where the kitchen and living room flow together, creating a practical, bright and welcoming space. A half wall...
