

Description

Some properties are bought. Others change everything.

This tenth-floor corner studio apartment, with direct sea views in the heart of Torremolinos, belongs to the second category.

Fully renovated just four months ago using high-end materials. No pending work, no decisions to make, no surprises. What you see in the photos is exactly what you get — turnkey, ready from the very day of completion.

Tourist rental license already in place. A market with demand all 12 months of the year. Just steps away from the train station, supermarkets, shops, and everything a guest — or you yourself — needs to enjoy a comfortable, effortless lifestyle.

Torremolinos is no longer the Torremolinos of the past. It is one of the most dynamic destinations in Southern Europe and an international benchmark for LGBT+ tourism in the Mediterranean. Occupancy here does not slow down. Demand here never stops....
