

Description

Near Arenas, nestled in the gentle hills of the Axarquía, lies this versatile property with several buildings and stables a true project for people with vision. On a plot of just over 2,200 m², there are various partly connected structures with a total built area of around 300 m². These include several storage buildings, additional outbuildings, and a total of 10 horse stalls. A particularly interesting feature: the largest of the storage buildings was constructed with the structural capacity to support a house being built on top without the need to modify the hall itself. A rare opportunity to combine living and working in the countryside or to bring a personal project to life. The buildings are in need of renovation but offer a solid foundation for a variety of uses whether for agricultural purposes, animal keeping, or as the basis for a creative rural development. Electricity and water connections are already in place. The property boasts open views of the surrounding mountains and a peaceful yet easily accessible location just a few minutes drive from the village of Arenas. A compelling opportunity for those who recognize and want to realize the potential of an authentic rural estate. We are pleased to be able to present this dream property to you soon, either personally or via virtual...
