

Description

Absolutely superb opportunity to acquire a great family townhouse in the Manilva village. This is a semidetached townhouse with a total of three floors, a small urbanization with its own pool and a mixture of owners from all over the world that enjoy a relaxed and Spanish lifestyle. Very child friendly and all amenities you need are close by, also are community fees very reasonable for such a large property.

This is a one off opportunity as this is a corner townhouse and it has been restored from top to bottom! All is new and of very good quality, ready for you and your family to move in and enjoy this great home.

You have different ways of entering this property, as an owner you would drive into your private garage with not one, but two private spaces and then you enter DIRECT into your home, up a staircase you come on the second level, here you find two lovely and large bedrooms with its own en-suite bathrooms, both bedrooms walk out onto a 10M2 terrace what is a great feature. On this level you can also find a larger third room that could be an office, music space, gym etc. You can also get out from the terrace to walk to your pool, very convenient to...
