Description

A Cutting-Edge Haven in the Heart of Pedregalejo Imagine waking up to the soft Mediterranean light, enjoying a coffee on your private terrace, and deciding whether the day calls for a stroll along the beach or relaxing by your own pool. At Calle Portugal, 2, a residential project that redefines luxury is born: a newly built semi-detached villa where modern architecture merges with the soul of Pedregalejo, one of Málaga's most emblematic and charming neighborhoods. This exclusive three-story home has been designed to offer maximum comfort and an unparalleled lifestyle. The ground floor opens up to a spectacular living, dining, and kitchen space that flows seamlessly to the exterior terraces, creating the perfect atmosphere for entertaining. On the upper floor, three magnificent bedrooms, each with its en-suite bathroom, ensure privacy and rest. Additionally, a versatile basement level offers a world of possibilities: a cinema room, a private gym, or a play area. To live here is to savor the best of Málaga. It's strolling through a neighborhood that preserves the charm of its fishing origins, with its picturesque houses and traditional "jábega" boats on the shore. It's enjoying the traditional "espetos" at the beachside restaurants...
