

Description

We are pleased to present this unique investment opportunity in the heart of Riogordo (Málaga): a substantial village house with a total built area of 381 m², distributed over three floors on a 323 m² urban residential plot. Constructed in 2005 and legally registered as a single property with no horizontal division, the building offers exceptional flexibility for redevelopment or reconfiguration. Structurally sound and attractively priced for its size and location, it is ideal for a full renovation to unlock its true potential. Multiple development options are possible, including retaining the current layout as two large homes with private outdoor spaces, converting the ground floor into a commercial unit, office, or co-working space for additional rental income, or creating two modern duplex apartments with private terraces suitable for long-term or holiday rentals. The first floor also allows for the creation of generous terraces connected to a communal garden at the rear, offering a rare outdoor oasis in the village centre. Strategically located just 35 minutes from Málaga city and 30 minutes from the coast at Torre del Mar, Riogordo is becoming increasingly attractive as demand grows for more affordable village living within commuting distance of the city...

CURRENT LAYOUT 2 ND FLOOR

TOTAAL: 276 m²
